To access the courier services from the current offer is necessary to conclude a contract. To transmit your data to us contracts you can access the link below

The delivery service of palletized goods (pallets) is subject to the CMR Convention assimilating both the obligations and the characteristics of this convention regarding the road transport of goods. For the payment delivery service or palletized goods, the additional services present in this offer - courier (cash on delivery, insurance, declared value, parcel verification or Saturday delivery) are not available. Transport is carried out through the cargo network with multiple carriers.
